

LOSS PREVENTION ON THE AVENUE - IMPORTANT INFO!

If you have not heard, we have been "hit" by a few groups of thieves on the Avenue. They, for the most part, are using the same tactics;

- highly distracting
- friendly
- overwhelming your business environment
- ask to use the bathroom
- always in a group of 2-6 people

In the event that any one of us have an issue, we have created a phone call system so we can notify our neighbors and partner with the **Block Captain Stores**. The suspects are Black males, Black females, Hispanic females, Asian females.

Please download the following:

- [Pictures](#) - Please share these images with your staff.
- List of [Block Captain Stores](#) - This sheet also contains a place to write down the businesses located to your right/left with phone numbers for easy access by you and your staff.
- [Loss Prevention Tips](#) - Valuable suggestions to protect your business.

THERE IS NO SAFE BUSINESS. They have hit every kind of business on the Avenue. Please discuss this with your staff and inform them that we need to work together as a community. If it happens in one of our businesses it happens to ALL of us. This is not an area where merchants should be acting alone. Had merchants been talking to each other and reported the various incidents to the Association, we could have had these measures in place much sooner. It is all about educating ourselves, partnering together and with the local police, and taking a stand.

Captain Chignell and Officer Wade Bailey have been responsive to our concerns and have taken an aggressive stance with all the information we have offered them.

If you have any camera shots of any suspicious behavior please forward them to cpagan2@juno.com.
